# Seas Lotus RM 120 L0021-04S

Cena	543,06 zł
Czas wysyłki	Do 30 dni
Producent	Seas

## Opis produktu

RM 120 L0021-04S

### High End automotive midrange

[Download D](#)

The manually coated paper cone and the mechanically matching natural rubber surround result in an unusually smooth midrange response.

Heavy copper rings mounted above and below the T-shaped pole piece reduce non linear and modulation distortion and increase overload margin.

The large magnet system provides good sensitivity and transient response.  
The chrome plated brass phase plug reduces compression due to temperature variations in the voice coil, increases long term power handling capacity and eliminates resonances in the cavity inside the voice coil former.

The extremely stiff and stable injection moulded zinc basket keeps the critical components in perfect alignment. Large windows in the basket both above and below the spider reduce sound refl exion, air fl ow noise and cavity resonance to a minimum.  
Gold plated terminals mounted on a glass fi bre reinforced plate reduce contact resistance and improve reliability.
