Producent	Seas

Opis produktu

RT 27F L0004-06S

High End automotive tweeter

[Download](#)

An optimally shaped 27mm diaphragm which gives well-controlled behaviour through the entire high frequency band. This diaphragm is produced from SONOLEX, a proprietary material developed and manufactured only by SEAS.

The SONOLEX process pre-coats the fabric 4 times with a damping/sealing material, resulting in excellent acoustic performance and consistency.

An efficient neodymium magnet system in a substantial injection-moulded rear chamber eliminates unwanted chamber resonances and secures an optimal frequency response.

Low viscosity magnetic fluid provides excellent cooling of the voice coil while maintaining a low resonance frequency.
