Opis produktu

RW 165/1 L0017-04S
High End automotive woofer

Precision cast and surface treated magnesium cone coupled to a natural rubber surround showing no sign of midrange (edge) resonances.

Large magnet system with bumped back plate makes room for extreme coil excursions.

Heavy copper rings mounted above and below the T-shaped pole piece reduce non linear and modulation distortion and increase overload margin.
Extremely stiff and stable injection moulded metal basket keeps the critical components in perfect alignment.
Gold plated terminals mounted on a glass fibre reinforced plate reduce contact resistance and improve reliability.

Frequency response

Dimer
