Opis produktu

H1214-06 27TBF/G

27TBF/G is a High Definition metal dome tweeter with a wide, soft polymer surround.

[Download D](#)

- Aluminium/magnesium alloy diaphragm with pistonic behaviour throughout the audible frequency range, resulting in a good dispersion also above 10kHz.
- A Hexagrid protects the diaphragm, and supports a phase plate which compensates for a slight axial roll off towards 20 kHz.
- Sonomax surround for low resonance and excellent mechanical linearity.
- Voice coil windings immersed in magnetic fluid increase short term power handling capacity and reduce the compression at high power levels.
- Optimally damped cavity in the pole piece controls and slightly lowers the fundamental resonance.
- The chassis is precision moulded from glass fibre reinforced plastic, and its front design offers optimum radiation conditions.
