Opis produktu

H1322-06 29TAF/W

29TAF/W is a High Definition metal dome tweeter with a wide, pre-coated fabric surround.

[Download Data Sheet](#)

Aluminium/magnesium alloy diaphragm with pistonic behaviour throughout the audible frequency range, resulting in a good dispersion also above 10kHz.

Wide Sonomex surround for low resonance and excellent mechanical linearity. Voice coil windings immersed in magnetic fluid increase short term power handling capacity and reduce the compression at high power levels.

Flexible lead out wires allow this driver to be used with low crossover frequencies.

Two part front plate with smooth, slightly elliptical wave guide made from elastomer provide excellent high frequency response and dispersion.

The wave guide conceals (and thus eliminates acoustic effects from) the magnet system screws.
