Opis produktu

H1396-04 27TFFNC/G

Compact design neodymium magnet tweeter for high quality speaker designs in small cabinets or automobiles.

[Download Data](#)

Sonolex precoated lightweight fabric diaphragm and suspension allows for very tight production tolerances and high consistency.

Wide roll surround together with a double chamber magnet system results in a low fundamental frequency.

Very low magnetic stray fields make this unit suitable for A/V systems.

The voice coil is immersed in magnetic fluid, allowing high power handling capacity and simplified crossover design.
