Opis produktu

H1499-06 27TBCD/GB-DXT

27TBCD/GB-DXT is a High Definition aluminium/magnesium alloy dome tweeter with DXT® lens.

An optimally shaped dome and a wide SONOMEX surround, both maufactured by SEAS, ensure excellent performance and consistency.

[Download Datasheet](#)

The compensation magnet increases the sensitivity and reduces the magnetic strayfield and allows use in close proximity to CRT screens.

A fine mesh grid protects the diaphragm.

Stiff and stable rear chamber with optimal acoustic damping allows the tweeter to be used with moderately low crossover frequencies.

This revolutionary DXT® tweeter addresses the major issues regarding directivity control in traditional loudspeaker designs. DXT® solves several well-know issues regarding; directivity control, off-axis response, integration with midrange units and baffle diffractions.
